CHAIN REACTION

CHAIN REACTION

The Anti-Nuclear Party have reprogrammed power station robo-equipment to empty the containment vault and attack all human staff. They have scattered eighteen canisters of highly dangerous radioactive fuel-rods throughout the seven-storey building. You have 30 minutes, an armour-piercing machine-gun and a personal jet-pack. You have the latest anti-radiation suit. The building has decontamination showers that may help you; but you will be fighting against time, intense radiation, robo-weapons, and all of this in a hostile environment with dangerously open floors, and the ever-present threat of falling down the vault.
